Winrock International

Winrock International is a nonprofit organization that works with people in the United States and around the world to empower the disadvantaged, increase economic opportunity, and sustain natural resources.
Winrock International is proud of its child-centered and rights-based approach in supporting children worldwide. Winrock will take all necessary steps to ensure that all staff, consultants, volunteers, and project partner staff understand that the welfare and overall development of all children is to be respected.

Winrock recognizes that all children—whatever their age, culture, disability, gender, language, racial origin, religious beliefs, and/or sexual identity—have the right to protection from abuse as well as other protections and rights afforded children under the United Nations and International Labour Organization conventions on the rights of the child.

The policy below is a part of Winrock’s Code of Conduct and is included in Winrock’s annual mandatory ethics training for all staff worldwide.
